THE MATH CHALLENGE

at Leigh School

WHAT IS IT?

We are excited to introduce the Math Challenge Program (MCP)- a FREE math enrichment opportunity designed for elementary students who love solving puzzles, thinking critically and exploring math beyond the classroom.

THE CHALLENGES

MCP is a series of 15 challenge sets released every other week from October through May. Each set features fun and engaging non-routine math problems that stretch students' thinking and develop their problem-solving skills.

GRADE LEVELS

Students in Kindergarten through Fourth Grade can participate! Participation is optional. Math Challenges can be accessed online at home.

TELL ME MORE!

Visit our school's Math Challenge Program page for instructions:
https://www.mathinaction.org/john-v-leigh-el.html

It's a great opportunity for families to engage in math together- parents and siblings are encouraged to join the fun and help solve the challenges!

Throughout the program, students will explore strategies such as:

-drawing a picture or model
-making an organized list
-looking for patterns
-working backward
and more!
