The Math Challenge

Fast Facts

When are the challenges released?

Math challenges are released every other week. Students and their families will have about 2 weeks to complete the problems on each challenge.

Where/When do I turn in my work?

- Turn into Mrs. Savage or Mrs. Giannini in room 213.
- Turn in by 3pm on due date.
- Write your name & teacher on your work!
- Work submitted after the due date will not be counted for that challenge.

Tell Me About the Challenges...

- Each challenge typically contains 18 problems.
- Problems increase in difficulty.
- There are a minimum number of problems students are expected to complete at each grade level.
  - Example:
    - K/1: 3 problems
    - 2/3: 7 problems
    - 4: 12 problems

What are the Benefits of Participating?

- Students and families building their math thinking together!
- Complete a minimum of 10 challenges and students will get recognized for their hard work in May! Remember to turn in your work for the challenge to be counted!

Do My Answers Need to be Correct?

NO! Answers do not need to be correct in order for participation to be counted. The goal is to build math conversations and thinking at home.

When Will answers be shared?

Answers will be shared after the due date, after work has been submitted.

If something was incorrect, that's okay! Talk about it!
